

## TECBOMO™ Limited Liability Company Partners with Databricks to Leverage The Databricks Data Intelligence Platform

TECBOMO™ has forged a strategic partnership with Databricks, the Data and AI powerhouse, to spearhead a new era of data-driven transformation for enterprises. This collaboration harnesses the cutting-edge Databricks Data Intelligence Platform, empowering TECBOMO™ to deliver unparalleled value. Our ability to unlock the latent potential within organizational data, converting it into a catalyst for innovation, operational excellence, and strategic foresight. By leveraging Databricks' unified environment, TECBOMO™ streamlines the entire data lifecycle, from ingestion and processing to advanced analytics and AI deployment.

TECBOMO's solution offering is anchored in the Databricks lakehouse architecture, a paradigm shift that unifies the best of data lakes and data warehouses. Built on open data formats and robust governance, this approach guarantees that customers maintain absolute control and ownership of their data assets. TECBOMO's expertise in architecting and implementing these lakehouse solutions translates into tangible business outcomes, enabling clients to derive actionable insights, build predictive models, and deploy intelligent applications with unprecedented speed and efficiency. This focus on open standards eliminates vendor lock-in and fosters a collaborative data ecosystem.

The Databricks Data Intelligence Platform democratizes access to analytics and intelligent applications by marrying customers' data with powerful AI models tuned to their business's unique characteristics. The platform is built on a lakehouse foundation of open data formats and open governance to ensure that all data is completely within the customers' control. This is a cornerstone of TECBOMO's mission. Beyond providing technological solutions, TECBOMO™ is committed to empowering users across the enterprise, regardless of their technical proficiency. Through tailored training programs, intuitive dashboards, and user-friendly interfaces, TECBOMO™ facilitates a data-literate culture. This empowerment fuels data-informed decision-making at every level, unlocking new avenues for growth, optimizing resource allocation, and fostering a competitive advantage in an increasingly data-centric world.

TECBOMO™ is rapidly establishing itself as a trusted advisor and industry expert in the Data and AI domain. The company's team comprises seasoned data scientists, engineers, and consultants with a proven track record of delivering successful data-driven initiatives. By combining deep domain knowledge with the power of the Databricks platform, TECBOMO™ crafts bespoke solutions that address the unique challenges and opportunities within each client's specific industry and business context. This consultative approach ensures that technology investments translate directly into measurable business value.

In essence, the TECBOMO and Databricks partnership represents a convergence of technological innovation and strategic implementation. This alliance equips organizations with the tools and

expertise necessary to navigate the complexities of modern data landscapes, accelerate their AI journeys, and achieve sustainable competitive differentiation. TECBOMO's unwavering commitment to client success, coupled with the transformative capabilities of the Databricks platform, positions them as a driving force in the evolution of data-driven business.
